FEBRUARY 2018

TOPIC SESSION

Our aim is for the physical changes the Masterplan will bring to go hand in hand with social, economic and health benefits for the local community, now and in the future. Please join us for a topic session to discuss and shape the priorities and ideas.
Thank you to everybody who came to the Developed Masterplan and First Detailed Plots exhibition in January. We had around 1600 people through the doors and another 500 at outreach events, with really helpful discussions and feedback.

Feedback is currently being analysed and will be incorporated into the Statement of Community Involvement. This is a public document that will be issued alongside the planning application, which is anticipated to be submitted this spring.

---

**Topic Session | Canada Water Charter**

**On:** 8th March 2018  | 7pm - 9pm  | Arrange from 6.30pm  
**At:** CWM Hub (opposite Tesco), Surrey Quays Shopping Centre, SE16 7LL

The Canada Water Charter is an in-progress framework that will set out how the Masterplan can work with the local community and stakeholders to create a place which brings social, economic, and health benefits, and where all across the community can find their place.

Join us at the topic session to discuss what this charter means, share your priorities and help shape ‘measures of success’ for the long term.

To inform the charter priorities and this discussion, research has been undertaken by Social Life, a social enterprise company. They have carried out surveys and interviews to better understand local social and economic conditions and how we could measure the changes.

We will also be holding local pop-up events ahead of the topic session to widen input and gather a range of contributions. Please contact us if you’d like more details or look out on social media.

---

**For more information:** refer to Board 10 of the Developed Masterplan Exhibition  
**At:** www.canadawatermasterplan.com/downloads/

Please RSVP for the event if you can using the details below.

---
